(Continued From Page 11)  
 plaint you will also be acting like a 10-year-old.

Dear Ann Landers: I am expecting our first baby in about six weeks. I have decided to name the baby after my husband.

Is there any difference between Anthony Michael Jones, Jr. and Anthony Michael Jones, II? If so, what is it? We don't want our son to be called Junior. By naming him Anthony Michael Jones, II we could avoid the Junior hazard.

We have asked several people about this, but nobody knows the answer. Do you?—Mrs. J.

Dear Mrs. J.: If you wish to avoid the Junior hazard you could name the baby Anthony Michael, II, but let me warn you—it's no guarantee.

When you see that Roman numeral II after a name it sometimes means a third heir arrived on the scene, which converted a Junior to The Second so the baby could be The Third. Generally speaking, however, Second is not a Junior at all. He may well have been named for a living grandfather or uncle.

Before you try to decode all this jazz, why don't you wait and see? It could be a girl.

At each meeting during the year members may exchange plants at the Plant Table. Donations received for plants will go to "Pennies for Pines," a project of reforestation supported by the Club.

The Riviera Garden Club meets on the fourth Tuesday morning of each month. A 9:30 a.m. business meeting precedes the program.

**TIME CLOCK**

...for more than thirty electric "servants" who work for you at an hourly cost 21% lower than in 1939

See those hands up there? They measure the kilowatt hours of electricity it takes to run the more than thirty electric appliances that serve the average California family. (A kilowatt hour of electricity will keep a 100-watt bulb lighted for 10 hours.)

What's so remarkable about a kilowatt hour? Nothing, unless you care how much you spend for things, as most of us do.

The average cost of electricity per kilowatt hour for Edison residential customers is 21% lower than in 1939.

Sure, your electric bill is higher now. That's because you are using more than twice as much electricity as you were in 1939. But your average cost per kilowatt hour is 21% lower.

The reason: more efficient methods of producing and delivering electricity, plus greater usage, have lowered your unit cost. The electric industry continues to lead in the research to find new ways to produce and use electricity. And logically so. Electricity is our business.

This research will continue to increase our efficiencies. As it does, Edison will continue to bring you an abundant, dependable supply of electricity at the lowest possible rates.

Mrs. Robert Case, state program chairman, expects over 800 women to convene for the meeting, representing 281 American Baptist churches in Southern California.

Mrs. Verner I. Olson, president of the Women's Baptist Mission Society of Southern California, San Fernando, will preside and give the Bible study entitled, "Transformed Into His Likeness."

The afternoon features Dr. William E. Braisted, American Baptist medical missionary to South India. Dr. and Mrs. Braisted are now on extended furlough. Their home church is the First Baptist Church of Dayton, Ohio.

Dr. Braisted began his missionary service in 1939 at Chin Li Hospital, Kwantung, South China. After the Communists entered Kityang in 1951, Dr. Braisted was held by the Communists for 23 months. In 1955, Dr. and Mrs. Braisted were assigned to the medical program at Clough Memorial Hospital in Ongole, South India.

Following the afternoon program, a tea will be held to provide time for local women to meet and talk with state board members.

**Program on Holy Land Set For Hospital Guild**

Color slides and intimate personal observations of the life and customs in the Holy Land and Lebanon will be presented to members of the Bay Harbor Hospital Guild Monday noon, Oct. 15, at the San Pedro Hacienda.

Presenting the unusual program will be Mrs. Cindy Mock of Redondo Beach, member of the hospital nurs-

ing staff, who lived for five years in Lebanon. Mrs. Mock, whose father, the late Dr. William Turner, was a missionary in China, spent many years as a girl in China and received her nurse's training there, according to Mrs. Louise Smith, president of the Guild.

Mrs. Mock was a prisoner of war for three years during World War II, and later moved to Lebanon before coming to the United States.

Final plans for a Rummage Sale to be held Oct. 26 and sewing of puppets and other articles for the holiday season and the children's ward of the hospital will be brought up at a short business meeting by Mrs. Dora Wirsin, ways and means chairman, and Mrs. Richard Rozendal of Torrance, puppet chairman.
